Description

The Hawk's Nest boasts a challenging 4 foot Vine Climber and Beanstalk Climber, while also offering a Straight and Curved Slide. The Ship's Wheel Panel adds dramatic play opportunities while giving caregivers increased visibility to the structure. Two ground level music components ensure that children of all abilities will enjoy this structure. Finally, the roof helps keeps kids cool as they explore the Hawk's Nest. This structure meets ADA guidelines and is commercially compliant with ASTM and CSPC. The posts are 13-gauge galvanized steel tube and powdercoated. The plastics are heavy-duty rotomolded and blow molded components. Critical fall height is 4'0" A ground spike surface mount is included with the structure, but an anchor bolt surface mount or in-ground mounting kit can be purchased separately. Perfect for easy-install, commercially compliant and budget-conscious solutions for daycares, churches and apartment complexes! Assembly required. Truck delivery.
