Description

This elegantly designed 24" outdoor refrigerator is also surprisingly practical, from the white LED lighting for nighttime use to the digital thermostat and temperature display that keep you in control of cooling. And that doesn't even factor in the unit's whopping capacity — up to 152 cans at once, more than enough to quench the whole crew's thirst! The spacious Blaze 24" Outdoor Refrigerator is built from durable, 304-grade stainless steel and carries a 1-year limited warranty along with best-in-class customer service. In short, Blaze has your back!
