Description

Bring your wood fire cooking to the next level with this WKK-03S-304SS Karma 42 professional stainless steel wood fire outdoor pizza oven! This oven cooks food very quickly and preserves nutritional quality, while allowing you to infuse your pizzas, meats, and vegetables with the flavors of smoky wood. With a vertical design, smoke travels easily to infuse whatever is cooking, whether your items are baking or roasting. Plus, the low-profile design helps drive heat towards the cooking desk for faster heating times!

This double-walled oven's interior has a thick-woven fire blanket insulation to withstand the heat. The entire oven, inside and out, is constructed of durable type 304 stainless steel to withstand the wear and tear of commercial use. The 304 stainless steel is highly resistant to corrosion that would otherwise be caused by dripping pizza grease and liquids from other foods. This extra-large capacity pizza oven features 1,120 sq. in. of cooking surface area. This unit should only be installed on non-combustible surfaces.
